

UVC AIR TRANSFORMER

WSS UVC AT

WORLD STAY SAFE
UVC DISINFECTION

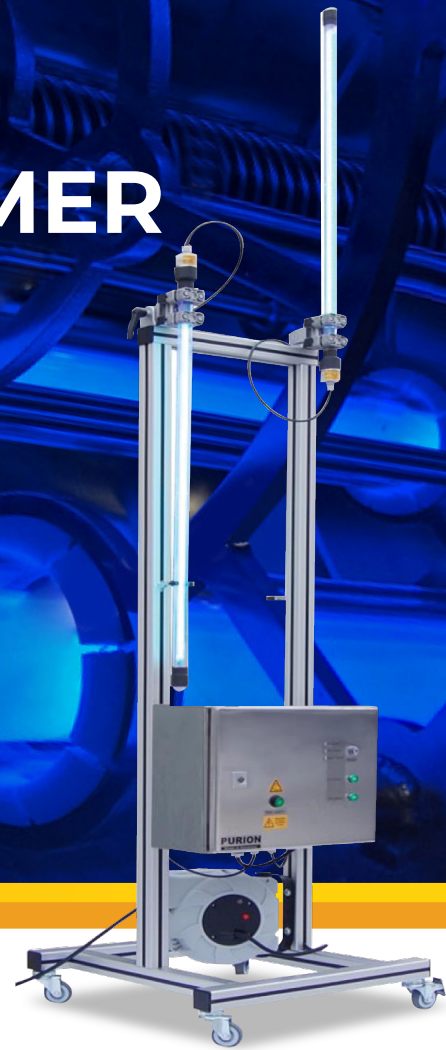

Advantages

- ▶ Chemical free
- ▶ High HACCP compliance due to splinter protection, monitoring system and remote control
- ▶ Easy maintenance
- ▶ Low operational costs

- ▶ The Transformer consists of two UV lamps which are placed in a quartz-made immersion tube system. The UV lamps are assembled on a robust and mobile rack. The controls are integrated in a switchbox made from stainless steel.
- ▶ The UVC AIR mobile can be switched on and off via remote control. The special Teflon coating on the UV radiators prevents the release of mercury or splinters in case of breakage of the UV lamps.
- ▶ To monitor the service life of the UV lamps, the mobile transformer is equipped with an Operating Time Counter (OTC).
- ▶ The Transformer UV-lamps are extremely durable, highly efficient disinfectants with very low energy consumption. The compact construction allows for an easy access to the lamps for replacement or checking without the use of additional tools.
- ▶ The UVC AIR TRANSFORMER is perfectly suitable for disinfection purposes in existing hospital operating theatres. For operation it is not necessary to take structural modifications which could harm certificates etc.

Type	Disinfection Tower
Disinfection Performance	Suitable up to a room volume of approx. 200 m ³
Dimensions	500 x 470 x 1550 mm
Weight	23 kg
Life time of UV lamps	10.000 h
Number of UV lamps	2
Protection grade	IP 65
Electrical connection	110-240 V 50/60 Hz
Total power	2 x 90 W
Over current protection	10 A
Remote control	Yes
Price	14,995.00 AED
