

UVC AIR & SURFACE COMBI DISINFECTION TOWER

WSS UVC ASCDT 150

- ▶ This Plug & Play Air Purifier utilizes the power of UVC Light to disinfect the air continuously from viruses, bacteria and other air borne infection agents
- ▶ UVGI is proven to be the most effective way of air disinfection
- ▶ The powerful UVC external lamp is capable of disinfecting surfaces of any type within 15 minutes. Just step out of the room and use the included remote control to switch the unit on and off
- ▶ Designed to achieve an air-disinfection rate of up to 99.99%
- ▶ The UVC AIR & SURFACE COMBI TOWER is suitable for areas up to 150sqm
- ▶ An ideal solution for public areas, healthcare, gyms, restaurants, offices or homes

MADE IN ITALY

- UV-COMBI TOWER has an epoxy powder-coated bearing structure of extruded aluminum sheet and a front cover with micro-holes, allowing air to enter and exit at both ends, making it pass through the TiOX[®] filter.
- The germicidal chamber houses the UVC lamps and is built with a special mirrored aluminum, which amplifies the disinfecting power of the lamps.
- UVC AIR & SURFACE COMBI DISINFECTION TOWER model has 2 external UVC lamps which also allow to deeply disinfect the surrounding air and surfaces through the process of direct radiation when being used in the night or nonoperational hours in the absence of humans. The closed air disinfection unit can be operated separately during normal business operation hours allowing for continuous air disinfection of the area.
- UVC AIR & SURFACE COMBI DISINFECTION TOWER is ready for use and does not require any special maintenance except for the periodical replacement of the lamps. Built in Italy, the unit uses high quality and extremely resistant materials.
