

UVC HOSPITALITY DISINFECTION BOX

WSS UVC HDBD

MADE IN ITALY

- This UVC BOX is a germicidal box consisting of a robust stainless-steel structure with a lockable glass door.
- The door includes a special LEXAN anti-UV window, which allows for checking the box while in operation.
- A built in timer and an auto switch off function in the control panel allow for flexibility in setting the required duration for disinfection.
- The lamps are automatically lit every time the door is closed with the disinfecting treatment continuing as per time set.
- The control panel also allows for pausing the unit between two disinfecting cycles. The lights automatically come on at the end of the pause timing set.
