

SMART WASH WITH CABINET

WSS SMART CABINET 3-IN-1

WORLD STAY SAFE
UVC DISINFECTION

Made in Germany

Benefits

- ▶ Stainless Steel body
- ▶ Infrared Sensor for contact-free operation
- ▶ Provides highest level of sanitization and hygiene

Instructions

- ▶ The unit can be easily connected to a wall socket and is recommended for use by people trained in its use and above 14 years of age.
- ▶ The assembly and disassembly of this unit needs to be done by specialized personnel only.

Warning

- ▶ Always unplug unit from the power supply before carrying out any maintenance.

Benefits

- ▶ Do not use cleaning agents containing high chlorine or acid content.
- ▶ Refrain from using high-pressure cleaning devices.
- ▶ Do not use scouring agents to clean the surface. Use of scouring agents will result in scratches.

- ▶ The Smart Wash with Cabinet is a 3-in-1 smart station designed for washing and disinfecting hands in public areas.
- ▶ The unit comes with two refillable containers for soap and disinfectant in addition to a transformer with an EU plug.
- ▶ Sensor-Controlled multifunctional faucet with touchless operation.
- ▶ The faucet system is designed for touchless dispensing of water, soap and disinfectant for cleaning and sanitizing hands.
- ▶ Infra-red sensor controls release of required amount of water and prevents wastage (Reduction of water consumption by 50% to standard faucets).
- ▶ This state-of-the-art compact unit is made with AISI 316 stainless steel.
- ▶ Automatic flushing function prevents water stagnation and formation of legionella bacteria.
- ▶ Easy to assemble.
- ▶ Ideal for hospitals, offices and homes.
