

ULTRA KNIGHT

UVC PIPE 16

WORLD STAY SAFE
UVC DISINFECTION

- Originally designed to fulfill the rigorous standards in the food industry, the UVC Ultra Knight is the perfect choice to tackle the sanitation needs in many areas such as hotels, schools, hospitals, gyms or offices alike. Its robust stainless steel body with IP65 protection level makes it even water resistant and ideal for the use in damp environments like laundries, SPAs or change rooms.
- It is perfect for the disinfection in places with limited space or for areas that cannot be treated by conventional ways, like delicate furniture, sensitive machinery or filled storage cabinets and lockers.
- There are many areas in all fields of business, this could be the most suitable and convenient device for.
- Within ultra-compact dimensions, it features a powerful 16W UV-C lamp surrounded by an internal mirror bright aluminum reflector to amplify its output even further and a durable nylon cylinder, which encloses the power supply ballast.
